User journey

by the Design Team of Accenture Interactive NL

Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users. \triangleright

Steps Check cmaera health health health lealth use app to user has to perform a feelings What your user hight act to drag and feeling at the marrent. Sumrised Curinus Asilhetic User friendly Huppy Satisfied Helped Analytical	Browsing of ages	St	Capture and Upload hand gestures		Open Web App		System and Camera compatibility check			O Phases High-level steps your user needs to accomplish from start to finish	
What your user might be thinking and feeling at the moment Surprised Curious Happy Satisfied Helped Analytical	Label the action identified	action using model	app to upload image		controls		tem camera	cmaera sys		Detailed actions your user has to
